

ADDITIONAL LOCAL

Fudger & Haynes—Soda Water Ice Cold.

Mr. W. B. Fudger is in town today.

T. E. Arnold has bought a Ford auto.

Mr. and Mrs. R. F. Lutz arrived from Wabash, Ind., yesterday.

Fudger & Haynes can arrange everything for that party, reception or tea.

County Commissioner S. B. Owens, of Oak Hill, was in DeLand on business yesterday.

Judge James D. Beggs, of Orlando, was in DeLand on legal business yesterday.

Mrs. A. L. Dailey returned to DeLand Tuesday evening, after spending the summer in Ohio.

Fresh Cranberries, Celery, Fruits, etc., and everything for your Thanksgiving Dinner at Dreka's. Phone 77.

Theo. Ruff is closing out his general merchandise business at Mascotte. He went to Mascotte yesterday.

The Volusia County Bank will probably move into its new building about the middle of December.

Mr. and Mrs. James W. Hodges are over from Oak Hill. Mr. Hodges is buying and soliciting fruit for John B. Drake & Co., of Boston.

Reeve, Howard & Co are displaying a beautiful assortment of solid silver, table ware, toilet sets and silver deposit vases.

Miss Adelaide Hill, of Raleigh, N. C., arrived in DeLand Friday evening, and is the guest for a few weeks, of her aunt, Miss Nancy Lee Hill, on Voorhis avenue.

Miss Myrtle Lamar, of Thomasville, Ga., is expected in DeLand next week on a visit to Miss Edna Bennett. Miss Bennett will meet her in Jacksonville.

Mr. J. Frank Alldis and family, and their guests, Mr. and Mrs. Howard D. Foster, spent Sunday in Daytona and on the beach, going over in Boley's auto.

The State Federation of Woman's Clubs had a big time in Patahka this week. Mrs. S. W. Johnston and Mrs. Wm. J. Harkness represented the DeLand Club.

The Gould Company sold a tract of land in DeSoto county this week, for a Kentucky man, to a Northern party, neither the buyer, seller nor agents ever having seen the property.

There will be a meeting of St. Barnabas Guild at the residence of Mrs. S. P. Hays Monday, November 22, at 3:30 o'clock. A full attendance is requested. All church women are cordially invited.

DeLand has been selected as one of the checking stations for the big auto race of next week. There are two checking stations for the third day's run—one at DeLand and the other at Orlando.

On Sunday Messrs. Woodall, Jordan, Fisher and S. A. Wood made the round trip from DeLand to Orlando, taking dinner at the San Juan in Orlando and returning home in time for supper. They went over in Gordon's machine.

Our Northern friends complain that Florida oranges so far received have been sour. They are right. The crop was late this year, owing to the fall drought. The rains of last week, and the cool weather of this week, will make the fruit much more palatable.

At the meeting of the local W. C. T. U. this week Mrs. J. H. Shedd and Miss Frances Bouchelle were elected delegates to the convention to be held at Plant City December 1-3. There will probably be a dozen ladies in the party which will go from DeLand to attend this convention.

Mr. and Mrs. Thomas Owens are making special preparations to entertain people at Blue Lake on Thanksgiving Day. Pleasure parties can secure boats for all day. Parties who carry picnic dinner, can secure use of tables, etc., and get hot coffee and tea on the grounds. There will be a clay pigeon shoot in the morning and a dance at night.

Mr. and Mrs. Leo Seilke, of New York City, were among the visitors to DeLand this week. Mr. Seilke, who is an artist, has purchased about sixty acres of land in the tract near New Smyrna, which he visited this week. He is greatly pleased with his purchase, and while there made arrangements to have several flowing wells sunk and about thirty acres of his land brought into cultivation. Mr. Seilke has farmed before, in the West, on a large scale. Mr. Seilke will probably buy or build a residence in DeLand and send his son and daughter to Stetson University.

New Thanksgiving Postals just received at Brill's.

The most remarkable thing in Florida, is, perhaps, the wonderful increase in the value of real estate all over the State during the past three or four years. Timber land that went begging at \$1.00 an acre a few years ago is worth from \$8.00 to \$30.00 an acre today. Truck and gardening land for which there was no call at all five years ago, is today bringing from \$20.00 to \$500.00 per acre. The earnings of \$50.00 to \$500.00 per acre actually made year after year from truck land has attracted the attention of the world to the wonderful resources of the State, and these returns are bringing thousands of people to Florida. The season of 1909-10 will witness the greatest influx of prospectors we have ever seen. Many of our home people, who have had an abiding faith in the future of Florida, have made good money out of real estate. Some few have made fortunes. DeLand real estate has kept pace with the prosperity of the State; the value of business property has increased, and as the town grows will continue to advance. Rents will gradually increase, too, as they have done in the past. The number of new business houses has not kept pace with the increase in residential property, and the next two years will see a great many new business blocks erected. DeLand is on a firm footing. Its resources consist of its fine educational advantages, both public and private; oranges, bringing in several hundred thousand dollars a year; its attractiveness as a winter resort; its surrounding—Lake Helen, Orange City, Glenwood, DeLeon, Cassadaga, etc. DeLand is not dependent on any one attraction or advantage. Its healthful climate, clean streets, refined atmosphere, etc., make it more attractive as a residential place, while the surrounding country presents the same resources in land, etc., as are found in sections less favored in civic pride and the many little things that go to "make life worth the living."

MRS REYNOLDS HAS PELLAGRA

Noted Florida Woman Is in a Baltimore Hospital.

Baltimore, Nov. 18.—Mrs. William B. Reynolds, of Tallahassee, Fla., principal of the State College for Women in Florida, and wife of the former State comptroller, is ill at St. Agnes' hospital in this city.

The doctors have diagnosed her case as being pellagra.

There is nothing gained in the government of children by threatening that which is not performed.

Men can be found who are willing to go to Africa as missionaries who are not willing to take care of a cross baby for the tired wife for half an hour.

Train your eyes to rest on the brightest spots in life. Pass the darkness on the other side. One of the sunniest places on earth is the spot made sacred by the hallowed influences of those we love in our own homes.

The time to have the brightest lamps lit, the hottest supper ready, to wear the gayest dresses and hunt up the funniest stories in one's memory, is the cold, rainy night, when there will not be any company, but when the homecoming husband, sons, or brothers will doubly enjoy the cheer.

The father who is "chummy" with his boy, gets down to that eager, inquiring, restless little soul and explains and encourages, does not need to cut a birch gad in order to maintain discipline and the mother who sympathizes, cuddles and plays with her children can keep her slippers on her feet and her hair-brush on the dressing table. Children need love and sympathy as much as flowers need air and sunshine.

The best way to keep the boys at home is to make it an object for them not to go out to seek amusement, for these they will have. Every farm home ought to be made a very heaven on earth to its inmates. Not alone the farm home either, but all the homes in the land. Learn each child's nature, and then work some home charm to keep him in your circle.

Of all places, praise should be most lavishly used in the family circle. How many of us keep all our words of kindness for strangers, for those in whom we have not one spark of vital interest; and to the hearts dependent upon us for sympathy and appreciation, have scarcely one cherry word. If we are so niggardly in the expenditure of the sweet charities of life that we cannot squander commendations on the home folks and strangers too, by all means let the home folks come in first for their share.

WHY IT PAYS

It pays to buy the goods that are consistently and persistently advertised. There is no greater fallacy than that contained in the statement that non-advertised goods can be sold cheaper because the expense of advertising is not added to their cost.

It requires no lengthy explanation to demonstrate that any product produced in large quantities can be manufactured and sold cheaper than those made in small lots. The manufacturer in large quantities can not only decrease the cost, but at the same time can improve the quality. The purchaser of raw materials in quantities can command the market; those that have these materials to sell are anxious for his trade—they quote him the lowest figures—they supply him with the choicest grades—and further, when a shortage in supply occurs, the large purchaser will be the one favored invariably.

The manufacturer in small quantities must put up with inferior facilities for manufacture—he must, in view of his small output, perform many of the operations of manufacture by hand, while the large producer can stand the expense of the construction of special machinery that will perform these same operations a hundred fold cheaper and better.

The small manufacturer in many instances is at the mercy of the seller of raw materials as to quality—the large producer can and does have in his service, experts to make accurate scientific tests for quality, and by so doing can establish a standard of quality impossible for the smaller concern.

The non-advertiser or semi-occasional advertiser has a smaller field for his wares and can, and in fact has to take some chances as to quality. The heavy advertiser, with his big output and growing field, does not dare to take any chances as to quality. He must make his products live up to their advertised quality—in fact, if he is wise he will, and usually does, make them even better than advertised in order to please the ultra fastidious.

Of all the things for which a young person should strive, a good character stands easily at the head of the list. It may be hard to get on without wealth and education, but without a good character, no permanent and enduring success can be attained.

NATURE'S WARNING.

DELAND PEOPLE MUST RECOGNIZE AND HEED IT.

Kidney ills come quietly—mysteriously.

But nature always warns you through the urine.

Notice the kidney secretions.

See if the color is unhealthy—

If there are settlements and sediment,

Passages too frequent, scanty, painful.

It's time then to use Doan's Kidney Pills.

To ward off bright's disease or diabetes.

Doan's have done great work in DeLand.

Mrs. Scott Hodgkin, Howry avenue, DeLand, Fla., says: "I am very glad to acknowledge the great benefit I derived from the use of Doan's Kidney Pills. My kidneys did not do their work properly and the secretions were scanty and otherwise unnatural. My back ached constantly and I suffered intensely if I stooped or lifted. I felt miserable and some days was hardly able to get around. I finally learned of Doan's Pills and procured them. It required but the use of two boxes to relieve the backaches and I have not had a pain in my back since. My kidneys are also normal, the secretions have become clear, in fact, I have been entirely relieved of kidney trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's and take no other.

The price that one pays for a taxi today is just a little different from what was paid for, say, the hire of a sedan chair in days of old. In the domestic accounts of "Mistress Nell Gwyn" we read: "For chairing you to Mrs. Knight's and to Mrs. Cassell's and to Mrs. Churchill's and to Mrs. Knight's, 4 shillings. For chairing you yesterday and waiting eleven hours, 11 shillings 6 pence. Paid 13th Oct., 1675."—London Chronicle.
